Application for YATA EB, VP of Communications - Motivational letter

Name: Zebulon Carlander
National Chapter: YATA Sweden

To who it may concern,

Please find attached with this document my CV, two letters of recommendation, and a proposed year plan, in application for the post of Vice-President of Communications for YATA.

With a broad and diverse set of experiences serving in leadership positions in many different organizations and endeavors, I fully believe that I have the capacity and knowledge to serve as the Vice-President of Communications for YATA.

I have a life-long passion for international security issues and a deep, heartfelt commitment to the transatlantic relationship. This has been reflected in the different experiences that I have had, such as having the opportunity to attend the 2016 NATO summit in Warsaw as a Future NATO Fellow.

My approach to every position that I have had the honor to have held has been to work with dedication, creativity and cheerfulness. That has been underpinned by a strong sense of ethics, responsibility and duty.

I have knowledge and experience working with different tools of communication, and how to use them to the greatest possible benefit. I am open to new ideas and not afraid to test them out.

If given the honor and privileged to serve as the Vice-President of Communications, I would work hard to continue to build on present platforms and tools to make YATA stronger and more visible within and outside of the transatlantic community.

Thank you for reading my application. I look forward to the coming election process.

Yours sincerely,

Zebulon Carlander
